

Student Quick Start Guide to Connected Quizzing

Welcome to Connected Quizzing, the easy-to-use formative assessment tool on Casebook Connect. Your professor will assign quizzes throughout the semester that will help you master your course material and enhance your learning.

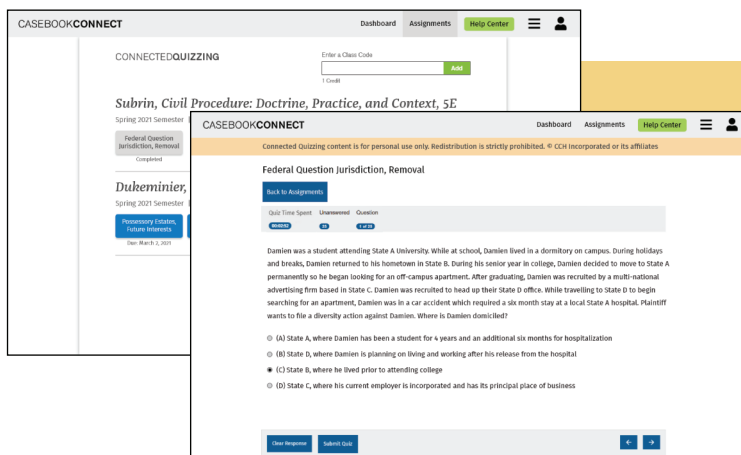

Get Started

Redeem your **Connected Quizzing Access Code** on your Casebook Connect bookshelf or at CasebookConnect.com/CQ, or purchase access to Connected Quizzing at AspenPublishing.com/CQ.

Once you have redeemed your Access Code or purchased access, click on Connected Quizzing on your bookshelf. Enter the **Connected Quizzing Class Code** provided by your professor in order to access your assignments.

Please note that Connected Quizzing does not come automatically as part of a Connected eBook purchase or access code—it requires an additional purchase or access code. If your professor assigns a bundle for your class, you will receive two access codes: one for your Connected eBook and one for Connected Quizzing.

Take Quizzes

When you have a new assignment, you will receive an email notification and a red badge will appear on the Connected Quizzing icon on your Casebook Connect bookshelf. Click on Connected Quizzing to view all your classes and assignments. Click on a quiz to view the due date and time remaining to submit the quiz. Click **Start** to begin answering questions. You can click **Back to Dashboard** to exit the quiz before it's due and return to it when you're ready.

View Results

Immediately after submitting your assignment, you'll receive your summary results, which include your score and time spent on the quiz. From your assignments page, click on the completed quiz, then the **Detailed** button to view your topic performance breakdown and the rationale for each question. With your detailed results, you will be able to pinpoint your strengths and weaknesses, as well as how you stack up to others in your class.
